\$2,999.00

R82 Heron

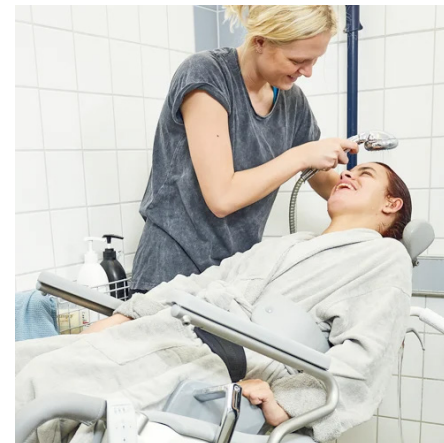

The Heron is a state of the art toilet and bathing chair

The simple design and clean appearance features multiple functionalities. It sets new standards for users with special needs for positioning.

The seat can be tilted and the back reclined without any disadvantage for the user. This provides the user more comfort when seated. The Heron is available as a hydraulic or power version. Both contain the same features of tilt-in-space and back recline.

The Heron can be used freestanding with a pan, directly over the toilet or as a bathing chair in the shower. Change the back height and add a couple of simple accessories to change seat width and seat depth – it is easy to make the Heron fit perfectly!

Starting at **\$5,615**

Revive Shower Commode

One-of-a-kind Comfort Tension Seating® system provides pressure redistribution and airflow for supportive comfort.

Extensive recline and anterior/posterior tilt.

Swing-away arm supports and height-adjustable, elevating leg supports.

Removable, padded shower commode seat with bed pan and basket for portable commode use.

The 16-gauge, powder-coated, rust-resistant, tubular steel frame is durable to outlast any other shower chair.

Starting at **\$2,908.97**

bathLyft

The BathLyft is a battery-operated bath chair that lowers and lifts the user in and out of the bathtub, reducing the strain on the user and preventing the risk of falls.

The stable frame and base plate ensure the user's stability and safety, while the padding and optimized dimensions ensure a comfortable bathing experience.

Set-up is tool-free and ensures easy installation and operation. Also comes in 4 colors to choose from.

\$465.70

ShowerGlyde is designed for individuals experiencing difficulty getting into and out of a tub or shower. This makes them great shower chairs for the elderly and for those with mobility issues. They help eliminate the difficulties and risks associated with transfers and can reintroduce a level of autonomy and dignity into showering. Three models are available depending on the layout of your bathroom. Multiple seat options, a Seat Belt, and a Grab Bar are included with every model.

Model SG1

SG1 is a sliding transfer bench. It is designed to fit in environments where there are no obstructions adjacent to the tub. SG1 slides over the tub and locks in two points. This allows for safe transfers for the user.

Starting at **\$529.66**

Model SG2

SG2 is designed to fit in environments with a toilet adjacent to the tub and slides effortlessly over the tub and locks in two points. A longer set of rails accommodates the use of the commode over the abutting toilet.

Starting at **\$529.66**

Model SG3

SG3 is a sliding transfer bench designed to fit in tighter environments. Shorter rails and a swivel option allow the bench to clear the obstruction/tight space without sacrificing comfort or ease of use.

Starting at **\$529.66**

showerbuddy®

SB2 TubBuddy

The SB2 is separated into three sections: rolling base (shower chair), bridge, and tub base. The rolling base can double as a bedside commode. It also rolls around the house like a wheelchair, allowing users to transfer comfortably and roll over most toilets to be used as an over-toilet commode.

When toileting is complete, the rolling base and tub base are connected using the bridge, allowing the unit to slide over the tub lip or curbed shower.

Once over the tub/shower, the rolling base and bridge can be disconnected and removed so that the shower curtain can either be closed or allow the caregiver space to move closer to the patient.

Starting at **\$3140.75**

SB2T TubBuddy with Tilt

The SB2T can roll over most toilets to be used as an over-toilet commode. When toileting is complete, the rolling base and shower base are connected using the bridge, allowing the chair to slide in a tilted position with legs raised and ready to move over the tub.

The shower base is connected using the bridge, allowing the chair to slide in a tilted position for pressure relief, increased comfort, and easy-reach bathing.

Once over the tub/shower, the rolling base and bridge can be disconnected and removed so that the shower curtain can be closed for privacy or allow the caregiver space to move closer to the patient. The rolling base can also double as wheelchair and bedside or over-toilet commode.

Starting at **\$3,480.75**

SB3T Roll-In Shower Chair with Tilt

The Roll-in Buddy with Tilt (SB3T) rolling shower chair is designed for use in curb-less or accessible roll-in shower stalls.

It measures 22" at its widest point (armrest), allowing it to fit through narrow doorways.

The SB3T offers a 30-degree infinite tilt feature for pressure relief, increased comfort, and easy bathing.

This versatile chair smoothly rolls over most toilets and can double as a bedside commode.

Starting at **\$2,195**

SB6W Roll-In Solo Chair

The Roll-InBuddy Solo (SB6W) shower chair is designed for use in a curbless/accessible or roll-in shower stall. The SB6W can roll over most toilets to be used as an over-toilet commode and can double as a bedside commode.

It is a self-propelled shower chair and is designed for independent use. The SB6W includes two 24" large, self-propelled wheels to allow the user independent, safe, and easy maneuvering throughout their home and bathroom area.

The 16-gauge, powder-coated, rust-resistant, tubular steel frame is durable to outlast any other shower chair.

Starting at **\$845.75**
