Beds and Mattresses

Invacare IVC BAR600 Bariatric Bed

The Invacare Bariatric Bed is a heavy-duty full-electric bed frame designed for bariatric individuals. It is capable of supporting patients who weigh up to 600 lb. The bed frame extends to the edges of the bed deck for better support than most other split-spring bariatric beds. Using the hand pendant, the patient or caregiver is able to change the positioning of the head and foot sections, as well as the bed height. Despite being substantial in size, bed setup within the home is easy - no special tools are needed.

Starting at
\$5,249.12

- Heavy-duty frame design ensures added strength for client support. Heavy-duty bed sleep surface is 17% larger than conventional beds to ensure comfortable positioning
- Split-spring design with universal bed ends for ease in setup. No special tools necessary for in-home setup. Easy-release motor mounts allow quick motor removal
- Robotically welded, steel frame construction
- Pendant allows for dynamic client positioning. Quiet, smooth operation
- Emergency crank manually functions to lower any raised section of bed

Invacare 5410LOW

Invacare's Home Care Bed offers a number of innovations that translate into long-term savings over the product lifecycle.

BEDMATLO85 Full-Electric Low Bed Package includes 5410LOW Full-Electric Bed and 5185 Homecare Innerspring Mattress 36" x 80"

Starting at
\$2,366

Invacare IVC Full-Electric Homecare Bed

Users and caregivers can easily adjust body position and bed height with intuitive hand pendant. Maintenance is easy with color-coded junction box connections. Interchangeable bed ends reduce inventory and are washable with standard water pressure.

Starting at
\$1,969

- Durable panels are impact and scratch-resistant and washable for easy cleaning
- Rubber casters are non-marring
- Ergonomic hand pendant features heavy-duty, strain-relief cord
- Convenient access to emergency manual crank for peace of mind
- Waterproof enclosures on motor system for easy cleaning
- Made in the USA

Speciality Beds

Select Care Bed

Designed and engineered for better care and comfort, the new SelectCare offers home-like design in a variety of colors, with the clinical and safety features you demand. SelectCare is an optimal solution for any location. Whether you need support at home, in a residential facility, assisted living, or other location, SelectCare is the perfect go-to.

- Home-inspired design, available in four colors.
- Option for standard and wider-width beds.
- Clinical contouring reduces repositioning.
- Built for home care, rehab, hospice, and assisted living.

Starting at \$5,392

Active Care Bed

Getting in and out of bed doesn't have to be a challenge. With the ActiveCare™ Beds and their automated SafeTurn system, it's easy to reposition, stand up, and get out. Choose from one of three models, which each include fully adjustable head and knee sections, plus a host of optional features.

- Built in stand assist with adjustable sleep surface plus SafeTurn.
- Multiple height settings and adjustable sleep section plus SafeTurn.
- Choice of gel memory foam, four-way stretch, heel pillows, and more.

Starting at \$4,297

All Care Bed

AllCare ensures any and every patient is always "tucked in." Wider sleep surface and to-the-floor lowering capabilities for more versatile uses. Additional comfort features for patient dignity and well-being. Single bed frame solution, streamlining staff training and support.

- With a quick click, it's easy to expand this bed to 42" wide for added patient comfort.
- One-button low-chair, Trendelenburg, and reverse Trendelenburg positioning.
- Added features for bariatric patient dignity, safety and overall well-being.

Starting at \$3,258

Retractable Bed

Versatile, portable, and easy to store, Retractable is an ideal addition to any hospital or facility. RetractableBed® shifts to accommodate patient and care team needs, without sacrificing safety or comfort.

- Lower footprint lowers patient fall risks.
- Bed expands to 42" in width for added comfort.
- Quickly retracts for easy access to bedside cabinet.
- Reduce skin shear and repositioning needs.

Mattresses

Invacare microAIR® MA600 Alternating Pressure Low Air Loss Mattress System

The Invacare microAIR MA600 Alternating Pressure Low Air Loss Mattress System provides 3-in-1 Alternating Pressure System with Low Air Loss to aid in the Prevention and Treatment of Pressure Injuries.

- Advanced 3-in-1 alternating function inflates and deflates cells in a 3:1 cycle, providing active pressure relief by supporting 2/3 of the body at any given time
- 8 adjustable comfort settings depending on the patient's therapy requirement
- HeelSense™ Technology can help provide further therapy and comfort by decreasing pressure in the vulnerable heel area
- Soft nylon urethane backed cells are designed to provide easy cleaning and help minimize the proliferation of bacterial growth

Softform Premier Active 2 Mattress

The Invacare Softform Premier Active 2 Hybrid Surface offers both reactive and active pressure redistribution for personalized pressure injury management. This easy to use, clean and service mattress offers advanced support therapy for patients at high risk of pressure injuries.

- Step up & down. Provides the possibility for easy 'step-up and stepdown' support with the addition of the RX control unit to further assist in the management of pressure injuries.
- High specification castellated foam helps with effective pressure redistribution in both reactive and active use.
- Single, U-shaped foam base is designed to provide side support and help facilitate transfers.
- Durable, breathable 4-way stretch cover helps reduce shear and friction.
